

WHO ARE WE?

Galt Environmental is one of Perth's leading environmental consulting companies providing specialist services to a wide range of WA industries. We have extensive experience across the whole of WA with projects ranging from the Kimberley to the Southern coast. Together with our sister company Galt Geotechnics, we aim to deliver fully integrated project services for all aspects of ground engineering and environmental management.

We work across all industries including:

- Mining
- Infrastructure
- Land development
- Oil and gas
- Waste management

WHAT CAN WE DO FOR YOU

Galt Environmental has extensive experience in providing the following services:

- Contaminated site assessment, remediation and ongoing management
- Acid sulfate soil assessment and management
- Dewatering management and approvals
- Asbestos risk assessment and management
- Landfill remediation and ground gas assessment
- Dust and air quality assessment and ongoing monitoring
- Due diligence assessments
- Environmental approvals

Galt Environmental is construction focused with an emphasis on value for the end client. We understand that contractors and clients need pragmatic, practical advice that minimises time, cost and red tape.
